be exploited, and also to determine whether or not your browser is vulnerable.

are vulnerable to the Window Injection Vulnerability.

Test Case / Demonstration

Step 1

This demonstration will open the CitiBank

When viewing the CitiBank web site, click one below. This should normally open a pop-up window from CitiBank about fraudulent emails.

Step 2

Starting the test is done by clicking the link below. If you have a pop-up blocker enabled, or a pop-up blocker enabled.

With Pop-up Blocker:

Test Now - With Pop-up Blocker - Left Click

Without Pop-up Blocker:

Test Now - Without Pop-up Blocker - Left Click

Please note. If you wish to run the test on this page before each test.

Step 3

You are vulnerable, if a pop-up window opens from Secunia and not from CitiBank.

What should you do?
